Blancco Management Console – Cloud

Cloud-Based Point of Control for Data Erasure Verification and Reporting

Why Blancco

As the de facto standard in data erasure, Blancco provides thousands of organizations with an absolute line of defense against costly security breaches, as well as verification of regulatory compliance through a 100% tamper-proof audit trail. Our data erasure solutions have been tested, certified, approved and recommended by 18 governing bodies around the world. No other security firm can boast this level of compliance with the most rigorous requirements set by government agencies, legal authorities and independent testing laboratories.

View Our Certifications

Blancco Management Console gives internal users, administrators and support staff data erasure management access in the cloud in order to ensure full compliance and enhanced data security.

With Blancco Management Console, users can view or modify erasure licenses and receive extensive tamper-proof, auditable reports. The solution requires no additional internal infrastructure or resources for deployment and is easily accessible via a secure portal.

Key Benefits

Safely Monitor Data Erasure Activities and Report Precisely on Results

- Perform due diligence on necessary data erasure requirements and report on best practices to increase stakeholder buy-in.

- Verify proof of compliance among national and international regulatory agencies, including ISO 27001 and ISO 27040 with a tamper-proof audit trail.

Strengthen Internal Processes and Increase Asset Value

- Eliminate the need for additional internal IT resources and infrastructure, while increasing the asset's value and reducing asset management costs.

- Strengthen data erasure knowledge and awareness to prove the value of asset management for stakeholder buy-in.

Integrated into Blancco Data Erasure Management

- Easily scale your operations by adding existing Blancco Data Eraser solutions into the console.

Technical Specifications

CENTRALIZED PROCESS MANAGEMENT	USER MANAGEMENT
• Complete cloud-hosted service for operating and managing the data erasure process • Online access to a central database with minimum effort in report distribution • Full compatibility with all Blancco Eraser software • Over 250 hardware details available	• Easy user management and distribution of user rights globally • Groups and subgroups can also be created for report sharing and license assignment • Control use of data erasure software and operator rights using Blancco's premium-level technology
REPORTING	**AUDITING**
• Comprehensive reports include details such as device name and model, IMEI code, and storage capacity • Reports can be exported as PDF, XML and CSV • Extra fields (such as customer name and asset ID) can be added to reports • Reports easily upload to Blancco Management Console	• User-friendly report browsing and filtering features • Comprehensive statistics available • Simple report distribution options • Full transparency of both diagnostics and erasure processes ensures a gapless audit trail
